By relegraph to the times.

TOPEKA (Kan.,) Oct. 17.—[By the Associated Press.] All telegraphers on the Santa Fé system, to the number of 000, struck this morning in response to an order from Chief Ramsey, of the Order of Railway Telegraphers. The source of the trouble is the Gulf, Colorado and Santa Fé, which is operated by the Santa Fé. The operators of the Texas line, several hundred in number had a schedule for increased wages b fore the officials, but it was not allowed. The Santa Fé operators struck in sympathy with the Texas operators.

pathy with the Texas operators.

General Manager Robinson, of the Santa Fé road, says: "The strike occurred under a misapprehension. Grand Chief Ramsey did not order the men out. I have traced the matter down and find that the order for the strike was a dodge, and that an operator by the name of Johnson wrote it and signed Ramsey's name to it. He intended it only as a joke, and when the men learn this they will return to work."

The men here do not credit Robin-son's statement. The Santa Fé officials also contend that the order for a strike on the Gulf, Colorado and Santa Fé was on the Guit, Colorado and Santa Fe was not made by Ramsey, but by his assist-ant, Tobey, who claims authority to sign Ramsey's name.

TOPEKA (Kan.,) Oct. 17.—The great strike of telegraphers on the Santa Fé system was all the result of a hoax, The operators were informed by Chief Ramsey tonight that the order direct-ing them to strike was a forgery, and he instructed them to return at once to

he instructed them to return at once to their positions. The operators immediately returned to their keys and the work of straightening out the tangle caused by the strike began.

Operator Baker, after reading the account of the strike on the Gulf, Colorado and Santa Fé division of the Santa Fé system, thought he would play a joke on the manager of his office. He wrote out a message ordering a strike and signed Chief Ramsey's name thereto, and laid it on the manager's desk. Manager Sweet after reading it immediately repeated the message to the next station. Within fifty minutes it was received by every operator on the system and fifteen minutes later every one struck. Baker was doubtless the only man whe got all the fun out of the joke, for it was most serious business for the for it was most serious business for the Santa Fé road. It was not until 7 o'clock this evening that Chief Ramsey

from Chicago to the Pacific Coast and from Kansas City to Galveston was practically tied up, over 200 operators being idle. The only man who remained at his post was the operator at Barclay, Kan., who says he knew the order was a hoax. The loss to the company is very great, while the only benefit to the operators is in showing the perfect manner in which they are organized. Joker Baker was dis-

held this morning. A resolution was
passed recognizing the splendid advance
made by the segro race in the South in
the accumulation of property and advancement of education and morals under the most adverse conditions; de-ploring acts of violence directed against them; proffering them sympathy and support in their efforts to secure the protection of the laws in their political

rights.

A report from the Committee on Union with the Free Baptists and other denominations stated that no results have been reached, but recommended a continuance of the committee.

A number of standing committees were appointed and the counsel finally adjourned late this afternoon to meet three years hence in San Francisco.

An Indian's Brutal Crime Near San Diego.

The Perpetrator Arrested in the Act of Escaping from Their Dwelling.

74 Telegraph to The Himes.

SAN DIEGO, Oct. 17.—[By the Associated Press.] The first news of a shocking murder of an aged couple was given in today's Sun. J. S. Geiser and wife had a farm on the Otay mesa about seven miles east of Otay Station, fifteen miles south of this city. Last night the children of a Mr. Piper, a relative and neighbor, heard screams while passing near the Geisers' place. Piper and son went over and as they approached the house they saw a light go out. As Piper entered a figure tried to slip out in the darkness and they grappied. After a terrible struggle Piper secured the fellow, an Indian la-borer named José Grabielo. On investiporer named Jose Grabielo. On investi-gation Piper found the bodies of the couple lying outside the front door, beaten nearly out of semblance of hu-manity. Three bloody sticks had been used. The indian's shoes were found at the fence.

The theory is that he killed Geiser The theory is that he killed Geiser in the cow yard, crept upon the old lady in the front room and dispatched her and then dragged the man's body up to where she had been thrown. Then in plundering the house he did not hear Piper's approach. It is believed the Indian had had a grudge against Geiser over pay about well-digging, also that he may have been the murderer, about three years also, of Miss. Abbey, who lived near on a ranch by herself, which crime always remained a mystery.

Officers were summoned, and after securing the murderer a search of the

Officers were summoned, and after securing the underer a search of the region revealed two other Indian suspects. All were brought here this morning, and the bodies were brought here also for the inquest. The two suspects say, they saw Grabielo, the third Indian, going along in the road with a demijohn and that he was drunk. They profess no knowledge of what occurred afterward. The prisoner appear stupid and will not talk.

A Decision of Political Importance by the Supreme Court.

Blaine Reticent as to His Plans for the Campaign.

Cleveland Refers a Reporter to a Clairvoyant - The Fusion Question in Minnesota Argued in Court-Campaign Echoes.

By Telegraph to The Times.

WASHINGTON, Oct. 17.—[By the Associated Press.] The United States Supreme Court, by Chief Justice Fuller, today reaffirmed the judgment of the Michigan Supreme Court upholding the constitutionality of the famous Miner law providing for the choice of Presidential electors by Congress districts instead of by the State as a whole. The Court holds that the Fourteenth amendment to the Constitution of the United States did not limit the right of a State to fix the mode of choosing electors. It is conceded that the effect of the decision. which was unanimous, is to give part, at least, of Michigan's electoral vote to Cleveland.

Chief Justice Fuller, in announcing the conclusion of the court, said that the announcement was made at this time because of the exigency, suggested by counsel, requiring early action. Hereafter the court would file an opin Hereafter the court would file an opinion setting forth more fully the grounds on which it decided the case. On the question of jurisdiction, which point the Democrats waived, the Chief Justice said the court ruled that under section 709, Revised Statutes, it had jurisdiction. The Chief Justice said, further, that the court ruled in view of the large tion. The Chief Justice said, further, that the court ruled in view of the language of the clause of the Constitution giving to State legislatures the right to determine the method of choosing Presidential electors that it cannot be held invalid for want of power in the State Legislature to pass such law, adding that the clause of the first section of article 2 of the Constitution was not article 2 of the Constitution was not changed by the fourteenth amendment and the law is not obnoxious to that

BLAINE IN NEW YORK.

He Talks With Reserve About His Plans for the Campaign. WHITE PLAISS (N. Y.,) Oct. 17.--[By the Associated Press. Blaine con-cluded his visit to Whitelaw Reid this morning and left for New York. At the conclusion of his stay there, he goes to Washington for the winter.

NEW YORK, Oct. 17 .- Blaine arrived at the Fifth Avenue Hotel this after noon. His arrival interested the politicians in the corridor. The Republi-cans seemed delighted, but the Democrats were quite the reverse. When Blaine's attention was called to the re-Blaine's attention was called to the report that he would write another letter, he said: "I would not want to answer directly. If I say 'No' I shall be beseiged by people who will beg me to do something for the party. If I say 'Yes' I shall be requested to go hither and yon, and won't know which way to turn. So, you see, the only thing for me to do is to rest. I am obliged to take good care of my health."

went to Ophir farm.

Regarding the campaign Blaine bases his confidence as to the result of the election on what he himself has seen, and from reports made to him by Republican leaders. "In a campaign of arg unent and discussion such as this has been," says the Maine states as this has been, "says the Maine states-man, "everything is in our favor, for we have the better side of the great questions before the people. Besides this President Harrison has given the country an able administration. All that now is needed to insure a Republican victory and continuation of pros-perity throughout the country is for the Republican voters to cast their ballots. With our full strength out, I regard success as almost certain."

MINNESOTA'S MUDDLE.

The Fusionists' Claims Presented in Court

St. Paul (Minn...) Oct. 17.—[By the Associated Press.] The mandamas proceedings before Judge Brill, by which the Democratic State Committee seeks to compel the Secretary of State to place the People's party electors, whom they indorsed with other Democrats, as well as with the Populist electors on the ballots, came up for hearing this morning. The entire argument was on the question of jurisdiction, which has already been waived by the State. When Atty-Gen. Clapp was called upon he replied that, having waived the question of jurisdiction argument was un-necessary, whereupon C. D. O'Brien denanded as an elector to hear from the Attorney-General. Clapp maintained that an executive officer is exempt from udicial interference in the perform-

ance of his duties.

The court announced that the decision as to jurisdiction will be rendered tomorrow morning.

CHICAGO, Oct. 17.—[By the Associated Press.] A clamorous expression of disappointment was raised today over the official announcement that the great military parade at the World's Fair dedication would be confined to the outskirts of the city, consisting only of a short march from Washington Park to was never any intention of parading idea was generally entertained, and the consensus of opinion this afternoon was that those responsible for the arrangements had made a grave mistake, which could hadly fail to lead to endless wide-spread criticism and ill feeling. United States infantry, cavalry, artillery and marines to the number of 2700 went into camp at the World's Fair grounds today. The larger body of troops will arrive tomorrow and Wednesday. My response to your courteous invitation to attend the dedication ceremonies of the World's Columbian Exposition has long been delayed. I should be very glad to be present on this share esting occasion and thus show my appreciation of its importance if I could do so solely as ex-President of the United States. I am sure, however, that this is impossible and I am unwilling to undertake a trip which from beginning to end, despite all efforts on my part, will be regarded as a political tour, made by a candidate for the Presidency. My general aversion to such trips is overwhelmingly increased in this instance when I recall the affictive dispensation which detains at the bedside of his sick wife another candidate for the Presidency. I have thus frankly stated the reasons which constrain me to forego the satisfaction which acceptance of your invitation would otherwise afford me. I hope in the light of the considerate and sympathetic sentiment which ought to be felt by all our people, that these considerations will be deemed abundant justification for my action. PHENIX (Ariz.,) Oct. 17.—[Special.]

German shoemaker named Rudoiph Manz committed suicide early this morning by a peculiar method. He roomed in the second story of a lodging-house on the main street. This morning he was found dead in a ditch by the side of the street.

Investigation showed that he had arisen during the night, broken a pitcher to pieces, and with the jagged fragments cut his throat and the radial arteries. He then, the blood flowing from him in streams, walked through the hall and on to the porch and delib-erately precipitated himself to the ground, sixteen feet below. In spite of added injuries from striking a stump, the man must have been still conscious intent on self-destruction, for he had unsteadily reeled off to the ditch, into which he seems to have intentionally thrust his head and kept it there until he was unconscious or dead. Manz for one year was an inmate of an in-

Champagne Vineyards Doomed.
[California Fruit Trade Review.]
It is well known that the best
French champagnes are made from
wines produced in a comparatively
small area of country whose soil and
climate conditions were found long ago
to yield wines whose proper blending
and treatment result in what we know
as "champagne." The exceedingly
limited area upon which wines having
the proper qualities for thus blending
could be produced, has been the prime
cause of the enormously high prices at
which this wine has long been sold.
There is no doubt, however, that to the
untrained taste, other combinations of
inferior wines may appear quite as
palatable and inspiring as the genuine
champagne. It is perhaps well that Boston, Oct. 17.—[By the Associated Press.] Capt. Cooke of this city has received a telegram from the London Sportsman stating that the National Club of London offers £4000 for a glove contest between the champion, James J. Corbett, and Peter guarantees Jackson all the financial backing that Cor-bett requires and will consent to any time for the meeting which the competitors may decide on, although preferring the end of spring or late in April. Capt. Cooke wired the telegram LIMA (O..) Oct. 17.-While Corbett was at Toledo the Libby glass works obtained a plaster cast of his right champagne. It is perhaps well that this is so, for the dreadful havoc made this is so, for the dreadful havoc made among the vines in the champagne districts by phylloxera, and now seriously threatening the entire industry with destruction, will certainly curtail still further the probabilities of our drinking genuine champagne.

The vignernous of the district are fully aware of the danger that hovers over them and are structions to hand. From this model glass paper weights will be made, to be placed on exhibition and sold at the World's Fair, with an affidavit from the champion.

fully aware of the danger that hovers over them, and are struggling to avert or postpone what now appears almost certain disaster. They are vigorously uprooting and burning all sick vines and replacing them with American stock. The disease seems to have most severely attacked the older vines, though many of the younger and more vigorous are yielding to its baleful touch. It goes without saying that every means known to science and capital has been and will be invoked to stay this pestilence of the vines; but when we remember that even Rothschild could not, by his millions, save his Medoc vineyards, it can scarcely be Medoe vineyards, it can scarcely be hoped that the champage region will be spared, now that the disease has an ac-knowledged foothold. The first result of the threatened devastation will be of of the threatened devastation will be of course to raise the price of champagues. While this fact may not necessarily cause special alarm to farmers and editors it should have its bearing upon the effort to produce and put upon the market the very best American subsitutes for the French champagnes.

We believe there is record of a few We believe there is record of a few persons of acknowledged ability to judge, who have had the courage to say that in some places in California we now produce a pure wine which bears most of the ear-marks of the best French article. While among a certain class of non-Americans this suggestion would be regarded as highly treasonable, yet be regarded as highly treasonable, yet there are wine-makers in this State who are not without hope of producing, at reasonable cost, a wine which shall yet rank beside the best of that for which we now pay four prices to the Frenchman, with the entire cer-tainty that it is not strictly genuine. The time is now ripe for Cal-ifornia wine-makers to put in the field genuine. The time is now ripe for Cal-ifornia wine-makers to put in the field the best skill obtainable in the direc-tion of creating a standard American

LETTERS TO THE TIMES.

Buena Vista-street Bridge.

LOS ANGELES, Oct. 17.—[To the Editor of THE TIMES.] I wish to address myself, through THE TIMES, to the City Council, the Electric Street Rallway Company and to all others concerned. A great deal has been said pro and con in reference to the street cars crossing the Buena Vista-street bridge. Certainly to lay a car track on the bridge, as it is at present, would practically destroy for driving one of the most valuable and used of our bridges, and that where most badly needed, being immediately adjoining the park where the city is now wisely spending a great deal of money. Would not this solve the problem at a light expense to all concerned: Raise the present floor to a level with the sidewalks on each side, thus letting the driveway occupy the entire width of the present bridge, adding some twelve feet by this means to present width, giving room for one car track in the center and thus giving ample room for a driveway on each side of said track. Then on the outside of the present bridge suspend a neat iron frame walk six feet in width on wide side only, which will be ample for all needs there for years to come. The entire expense, at a rough estimate, should be less than \$2000 and let this be jointly paid by the city and street car company. Heing an interested "East Sider," I trust this plan will have at least a careful thought by all those interested.

"Without doubt. The Americans, as a rule, are not large consumers of oil, but the percentage of those who use it is growing. The italians are the largest consumers. They buy it by the gallon and use it as freely as our people use butter, and in much the same way."

They have strennous laws against adulteration and do not attempt to sell their oil in competition with oils of lower grade. They are enabled to keep up the price, as their home trade takes nearly all their production. Mr. Ellwood Cooper, formerly a large olive grower and the founder of the olive oil trade of Cultornia, says there is more pure olive oil fornia, says there is more pure olive oil eaten in Santa Barbara than in the city of New York. was kept over night.

The Chinaman was searched and only
15 cents could be found on him, showing that he was down to bedrock from
a financial standpoint. The fellow was
badly frightened, and begged the officers not to let the white men kill him.
It is not known how long he was in the hay stack, but from his half-starved condition it is believed that he has been there since Saturday, with the excep-tion of once or twice when he crawled out at night to get water or something to eat.

He crawled in his hole backward,

and came as near pulling the hole in after him as one could possibly do.

When Steele pulled him out he thought his last day had come and begged for mercy in a most pitiable

voice.

He refused to make any statement regarding the terrible crime of which he
is accused, but it is believed that when
he is over his fright today he will unravel the mystery.

The chief had gone home when Steele

arrived, but he was notified at once and cautioned the officers against making the capture known on the streets dur-

the capture known on the streets dur-ing the night.

An extra force of officers was sta-cloned at the central station, in case of trouble, and the rifle squad was kept in Chinatown all night.

Chinatown all night.
Yesterday morning he received the following dispatch from San Francisco:
We are informed that the enraged people intend to mob Chinatown on account of a Spanish boy having been murdered in Chinatown of your city. Please give protection in accordance with law.

EXPLANATORY.

Los Angeles Terminal Railway Company Los Angeles, October 15, 1892. Hon. J. De Barth Shorb, San Gabriel, Cal.— DEAR SIR: I am in receipt of your favor of the 14th inst., asking me to state whether you were in any way responsible wnether you were in any way responsible for the dismissal from our service of cer-tain trainmen formerly employed by the San Gabriel Valley Rapid Transit Railway. Three men were retained when we took possession of the Rapid Transit Railway, at the solicitation of Messrs. Kerckhoff and Storry, with whom our negotiations for the the solicitation of Messrs. Kerckhoff and Storry, with whom our negotiations for the lease of that road were made, and after-ward, entire dismissal was requested by the same parties, which was compiled with by us. The matter was never spoken of by you to me until a few days ago, when you requested that they be reinstated. Yours truly, T. B. BURNETT, T. B. BURNETT. General Manager

Though considering trades unions a hobby of the 'workingmen, occupying their attention far too much, they are good-natured enough to say: Let them indulge in their pastime until they get tired of it. True to the old American rule, "Live and let live." most Republicans think it not gentleman-like to quarrel with workingmen about wages and a great many are man-like to quarrel with workingmen about wages, and a great many are large-minded and far-sighted enough to consider fighting with their bread-winners sheer waste of time, nerve and money. Besides this, we know many Republicans who admit that in a country boasting of self-government enightened workingmen ought to be considered workingmen ought to be conlightened workingmen ought to be con ulted when rules for government in

For more than thirty years organized labor has pulled the same political rope as the Republicans, and joined with them in one national party we have elected governments which thought less of glittering theories and more of the material interests of the Nation than the Democrats in a hundred years.

From the organized laborer's point of view it can be said that the Republicans as a governing power have always fostered the vital interests of the workingmen and never yet attempted to weake them as a class with a view to destroy them as a social power. Under Republican rule came industry and wealth, and in their wake appeared trades unions after trade unions, together with good wages and decent treatment

The Changed Method of Voting The recent decision of the Supreme Court of this State, construing the law as to the method of voting by the Australian system, is unfortunate in one respect. Beside the confusion arising in the public mind from the change of instruction so short a time before election, the fact that a great many more marks must be placed on a straight ticket than as previously understood, greatly multiplies the chances of error.

The only advantage to be urged in favor of the new plan is that it places all parties on an equal footing, and that the Populites will have no chance to kick. It may also tend to the voting of less straight tickets and cause a closer discrimination between candidates.

And as mistakes of head and heart committed by prominent men like you are always visited upon their simple followers, and as we desire to hold the fort of our quions and the stronghold of our country together, we herewith put in our selemn protest Undoubtedly a great many ballots will be thrown out as irregular. Perhaps 20 per cent. of the total vote cast will be lost in this way. In view of this probably large shrinkage, it stands the Republicans in hand to diffuse a knowledge of the new requirements as generally among the members of the party as possible to the end that their loss may be re As we Americans are an enlightened and progressive people, there are al-ways principles at work among us; that duced to a minimum. If a degenrison for the Presidency. If a dozen ties. The Republican declares. The American Government must give aid and comfort to industry. The Demorison for the Presidency. If a dozen unauthorized and irresponsible persons, calling themselves Republicans or Democrats, should meet and nominate some one else, it would not be proper to say that the Republicans or the Democrats had nominated So-and-so. The Suffragists of this country have their national organization, with about thirty State societies auxiliary to it. They The Republicans say: The protective tariff is a good and constitutional means to attain a beneficial end. The Demostate societies auxiliary to it. They have made no nomination for President of the United States. The alleged nomination is the act of a few wholly irresponsible persons. With the exception of the candidate herself, not one of the women said to have taken part in the so-called convention crats maintain: The high tariff is a had purpose which is denounced by the orthodox science of political economy. We shall not here discuss the merits of the tariff laws, but merely ask some questions. Do you think it of importance to you individually or to the body of men whom you represent collectively whether the country, has a government which will give aid and comfort to people engaged in industry or one which taken part in the so-called convention is known to us even by name. The Suffragists of the United States realize that it would be altogether premature for them to set up a candidate for the Presidency while women have no votes; and if they were to nominate anybody, it would certainly not be Mrs. Victoria Weedhall Martin and hopes?

Councilman Rhodes moved that the Street Superintendent be authorized to accept \$250 from the electric railroad company as their assessment for the opening of Third street.

OUTFALL SEWER BONDS.

On the request of Councilman Tufts the City Attorney reported that in his opin-ion there was nothing in the communiion there was nothing in the communi-cation of Atty.-Gen. Hart that would prevent the Council from making the award of the outfall sewer bonds, if it so desired, and, on the recommendation of the Sewer Committee the entire issue was awarded to Blair & Co. of New York, whose bid was the highest and best, being par, accrued interest and a premium of \$9904, the bidders to de-posit a \$5000 certified check as an ev-

premium of \$9904, the bidders to deposit a \$5000 certified check as an evidence of good faith.

The City Attorney incidentally remarked that the best proof that there was nothing in the Hart communication was the fact that the city had already sold \$594,000 worth of bonds at a premium, and their legality had never a premium, and their legality had never en questioned.

Contracts with T. A. Grant and Frank Addrich for the painting of the bridges were approved, and, after the reading of the usual petitions and communications, the Council adjourned until 10 o'clock this morning.

UNITED PRESBYTERIANS.

The Sessions of the Synod Continued—The Evening Exercises.

The United Presbyterian Synod met yesterday morning at 9 o'clock. The first half hour was occupied by devo-tional exercises led by Rev. Robert Smith of San Francisco. Rev. Dr. A. Calhoun presented the claims of the American Bible Society,

claims of the American Bible Society, and it was resolved that the synod regards the society with favor, and recommends that each congregation take a collection in aid of its work during the year. It was voted that the next session of the synod be held in October, 1894. The ladies held a conference session of the synod be held in October, 1894. The ladies held a conference meeting at the parsonage in the afternoon and the regular session was devoted to the matter of establishing another church at Salinas. One church of this denomination already exists there, and the opinion of the synod as to the necessity of establishing another was divided. After a long discussion it was decided to report the whole matter to the General Assembly, which meets next May. The evening session was devoted to a conference on "What Constitutes an Efficient Working Church." A. W. Johnson presided and, after prayer by Dr. Calhoun and singing by the congregation the discussion was opened by Rev. Mr. Baldridge, who emphasized the fact that an efficient church must first have its foundation in God. The central source of human power is in the pastor and elders, and next in the congregation in its organized capacity. Then the Sunday-school, the young people's organizations and the women's societies are other agencies, and around all these must be that unity of spirit in the bond of peace against which there is no resistance.

Other ministers participated in the

Mr. Dwier was informed that the "professor" left between two days for some mysterious reason, and the "doctor" followed soon after.

Not caring to be swindled in such an open-faced manner, the countryman started out to look the pair up, but failed, and as a last resort he called at the central station and wanted them brought back.

If he secures a warrant, the officers will make an attempt to catch them, but up to a late hour last evening nothing had been done.

It is understood that the pair started for the East Sunday.

Do You Want House Letter Boxes?—A Good Thing Within Reach. What are the citizens of Los Angeles

going to do in regard to the recent or der of Postmaster-General Wanamaker authorizing postmasters in free delivery cities, towns and rural communities to put up house letter boxes for the col-lection as well as the delivery of mail on regular free deliveries, whenever two-thirds of the householders on a given route desire this new double serv-

ice! The matter has been thoroughly discussed at other points, but so far has not attracted much attention in this city. The Postmaster-General is anxious to introduce the system here and will do so whenever the necessary two-thirds of householders are several. will do so whenever the necessary two-thirds of householders on any route in-dicate their willingness to pay \$1 each for letter boxes. These letter boxes have been tested for two years in Wash-ington and St. Louis, where the tests demonstrated that collections are pos-sible with deliveries and without loss of time to the carriers, and that there is a saving of time in the double service on saving of time in the double service or compactly settled routes, which can be itilized to extend the system or increase

utilized to extend the system or increase the number of deliveries.

The principal, reason why the new double service sould be desirable to householders is because of the convenience of being able to drop their mail into an inside collection and delivery box without going out of doors, and in thus securing the prompt transmission of the mail they desire to send away. As the inside collection and delivery boxes only cost \$1 each, and they would give every householder every convenience they would have if they lived in the postoffice, there ought to be no trouble about securing this new and desirable service for every route in Los. Angeles. In addition to the greater safety of all mail matter these boxes would provide a place for the reception would provide a place for the reception of your Dailt Times where it can not be blown away or get wet in the rain before you gather it in. The boxes will soon be ready and the householders of Los Angeles should be among the first to gain the advantages of this new average. to gain the advantages of this new system for the safe and speedy collection and delivery of mail.

J.T. SHEWARD,

/ESTERDAY there was a regular avalanche of trade; every counter upstairs and down was crowded to its utmost. The great Cloak Department was crowded; the sales in Dress Goods were very larger; the Kid Glove counter was lined all day, and all other counters had a big run. No trade in all this city is showing one-half the gains we are now making; the great popularity of this house is spreading. Selling goods cheap, treating every-body well; more new men behind dress goods counter, more new men behind the linen counter, more new hands in the big millinery room—this tells the story of a great growth, this shows which way the wind if blowing. All clerks speak well of this house. We close Saturday nights; the outside public is showing its appreciation by a very great

increase in patronage. The great 50c line of Dress Goods; the great line of All-wool Broadcloths, one of the most popular articles of

the season; these are being shown in large quantities. Cloaks, \$2.50. \$3.00. \$3.50 and \$5.00; these are values at a low price; new styles and comfortable fitting goods finer cloaks for \$8.00, \$10.00, \$12.00 and \$15.00; this line is very large.

One price-you are safe upon this plan. We are the largest advertisers; our advertisements are truthful; we have the goods when you call for them; thoroughly reliable in every way.

Royal Worcester Corsets, they stand at the head; the big Corset Department has very largely increased business the past year. P. & P. Kid Gloves, \$1.00, \$1.25, \$1.50, \$1.75 and \$2.00; they are right, they are good fitting, they wear well, there is none better; the sales in kid gloves are showing a very large increase-try a pair of P. & P. Kid Gloves. Visit our Linen Department, it is under the management of Mr. Williamson, long and favorably known in the linen trade of this city; the linen trade of this house will take a tremendous jump upward from now on.

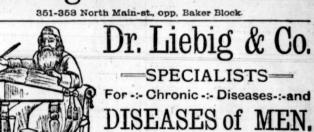

Removal Clearance Sale

We will occupy the new Bicknell Block on Broadway, oppo-site the City Hall, about November 1st, with a new line of goods. We intend to close out our present stock before mov-ing and will name prices that will sell the goods.

OFFICE OF THE TIMES, Los Angeles, Oct. 17, 1892. Los Angeles, Oct. 17, 1892.

The Mark Lane Express, in its weekly retiew of the English grain trade, says:

"It is now believed that the wheat yield of Great Britain does not exceed 6,000,000 quarters. There is a fine yield of barley, but that of fine mailting grade is very scarce. Wheat has fallen, I shilling. Foreign wheats are firm, as the decrease in Indian whitmans. Indiances, the large American shipmans. eign wheats are firm, as the decrease in Indian shipments balances the large American crop. Barley is 6d dearer. Oats and corn are steady. Today English wheat was steady. Fine American advanced 1 shilling; ordinary American was 6d higher. Flour was 6d dearer. Barley and corn were firm. Oats were 3d higher. Linseed was 6d higher. "The butter market showed less firmness today and prices were somewhat lower, especially for fancy grades.

The Bird Visited by a Large Number of People Yesterday. The big South American Eagle which the Union League Drill Corps brought down from San Francisco with them as een safely ensconced in its wire cage in a corner of the League rooms on Second street and was yesterday the chnosure of many admiring eyes as it stretched its hooked beak through the of raw beef, which the colored janitor dealt out as its noonday meal. The huge bird will measure about six feet across its outspread wings, and its talons are several inches in length and sharp as needle points. It is of the species commonly found among the Andes of South America, being of a sharp as needle points. It is of the species commonly found among the Andes of South America, being of a brownish color, with white beak. The cage in which it is now confined is far too small to allow a full spread of the mighty wings and it is proposed to build an enclosure of sufficient dimensions so that the bird of liberty may stretch its feathery pinions and scream to its heart's content. The Union League boys are already becoming proud of their pet, and the only fear is that its career may be brought to an untimely close by two

Movement to Secure a Topographic Survey

The next State Legislature will be asked to make the first appropriation of \$25,000 annually for the purposes of a topographical survey of the State, to be made by the State in conjunction with the United States Geological Survey Cover and to be geometric within with the United States Geological Survey Corps and to be completed within the next ten years. The object of the proposed survey is the preparation of a complete and authentic State topographic map. A conference with this object in view was held in San Francisco several days ago. The parties to the conference were officers of the United States Geological Survey and members of a joint committee composed of representatives from the two members of a joint committee composed of representatives from the two
universities, the Academy of Sciences,
the Technical Society and the Science
Association of the University of California. There were present Profs. Joseph Le Conte, F. Soule, S. B. Christy,

The plan there adopted has been that the expense of the survey has been equally shared by the State and the Na-tional Government, and the work has been done by the corps of the United tional Government, and the work has been done by the corps of the United States Geological Survey. In this way Massachusetts, Rhode Island, Connecticut and New Jersey have been completely surveyed, and the survey of New York State is now under way.

After some general talk Maj. Powell addressed the committee reviewing the

addressed the committee reviewing the history of topographical surveying in the United States and the preparation of maps under these surveys. At first, these maps were on a scale of four miles to the inch; then by reason of the change in public sentiment it was concluded to make part of the maps on the scale of two miles to the inch, and finally, with State cooperation in several instances, to survey certain of the maps on the scale of one mile to the inch. As these more accurate and expensive maps have been produced their superiority has been recognized, so that the demand at the present time is unanimous for maps on a scale of one mile to the inch, and for maps on a scale of one mile to the inch as these more accurate and expensive maps have been produced their superiority has been recognized, so that the demand at the present time is unanimous for maps on a scale of one mile to the inch and for wast acceptance. imous for maps on a scale of one mile to the inch and for most careful work.

The speaker specifically stated that the valley, foothill and lower mountain areas of California could be surveyed, for the publication scale indicated, at a cost per square mile ranging from \$8 for the flat plains of the broad interior valleys to \$20 for the less rugged of the Coast range, and added that the Geological Survey stands ready to cookers.

The details of the proposed survey were then discussed, after which specifications were adopted in accordance with the practice of the Geological Survey after which the joint committee. vey, after which the joint committee formally indorsed the proposition to co-operate in the work as soon as Califor-

operate in the work as soon as California is prepared to proceed.

The area which it is proposed to map is 40,000 square miles, and the work will take ten years for its completion.

The total cost would be less than \$500,000, of which one-half would be charge-able to the State. This spread over ten able to the State. This spread overten years would by only \$25 000 annually. The committee will meet again, shortly to take steps to secure the introduction and passage of a bill in the next Legislature to render the project effective.

The work above proposed is in direct line with that carried on under the direction of Arthur P. Davis and his as-

rection of Arthur P. Davis and his assistants, of the Geological Survey, in San Diego and San Bernardino counties, the great value of which is attested by every engineer who has examined the maps prepared by these gentlemen, and which are now in the branch office of the survey on South Broadway.

The Democrats in a Decidedly Demoralized Condition.

A Vigorous Kick Against the Fusion With the Populites-A Number of the Old Wheel-horses Kicking Out of

The situation of the Democratic party in Orange county is indeed becoming interesting. Whether or not its present muddled condition may be attributed to over indulgence in "beef tea" is not known; but one thing is certain, and that is that they are beginning to, hold up their hands in holy horror as they, in all seriousness, ask the question, "Oh, where are we at?"

The Santa Ana Standard, noted for its true-blue Democratic principles, devotes a considerable space in its recent issue to the questionable methods of the Democratic County Central Committee. The editor of the Standard is disgusted with the actions of the Central Committee, which he terms as stuitifying and contemptible in the eyes of all true Democrats.

In moralizing over the mess the party has made in trying to force its voiters fixed cattle to a brook to drink, to vote for Bennett for the Assembly, the editor says:

Text of a Remarkable Communica tion Sent to the City Council.

The Validity of the Outfall Sewer Bonds Attacked.

Horseback Opinion by Mr. Hart to the Effect That He Believes They are Illegal-Alleged Reasons for

Yesterday morning the following remarkable communication from Atty Gen. Hart was 'presented to the City

Council:

Los Angeles (Cal.,) Oct. 17, 1892.

To the Honorable Mayor and Council of the City of Los Angeles—Gentlemen: On Saturday afternoon a prominent citizen and taxpayer of your city made application to me to bring a suit in the name of the people of the State of California against your honorable Body. In your official capacity, and against the city of Los Angeles, for the purpose of declaring that the \$305,000 sewer bonds, heretofore ordered to be issued by your honorable body, should be declared null and void. After hearing reasons for such action I am satisfied that the bonds are illegal:

First—Because the requisite number of electors of said city did not vote at the electors. The there were there sufficient votes cast for the purpose of creating said interpretable and the contraction of the purpose of creating said interpretable and contractions.

ast for the purpose of creating said in-lebtedness represented by said sewer

Second—That your honorable body has no jurisdiction to issue said bonds under section 223 of the charter, in that there is no provision of law providing for the machinery of issuing such bonds. Third—Because said bonds are made-payable in gold coin, a provision which cannot be inserted in the bonds unless authorized by statute, and there is no statute authorizing such a provision in reference to sewer and improvement bonds, or, in fact, for any bonds except bonds issued to refund the debt of a city or county.

ounty.

Fourth—It is also contended that there rere defects in the ordinance passed by our honorable body in reference to the ssuance of said bonds.

ssuance of said bonds.

I do not desire to bring an action without trst giving your honorable body a hearing. Therefore if you have any objection to the granting of the application to bring suit, you will please make the same known to me omorrow. Tuesday, at 1:30 o'clock p.m., at room 123, Westminster Hotel, this city, at which time I will hear and examine whatever authorities you may present in whatever authorities you may present in this matter. I trust in the meantime that you will take no steps to dispose of said bonds, and that any contemplated action upon the matter will be continued until after our conference, if any, tomorrow. Yours respectfully.

business until the noon recess.

During the noon recess, the Council met in committee of the whole and considered the bids for the bonds, and when the Council convened in the afternoon, City Attorney McFarland reported that there was nothing in the communication to prevent the Council from going ahead in the matter, and, as the people who wanted the bonds were satisfied of their legality, the award was made to the representative of Blair & Co., who offered par and accrued interest, with a premium of \$9904 for the entire issue.

During the afternoon the communication was generally discussed in official

the proper time, and in regular form, in the courts, and not at hotels and boarding-houses. As to the reasons put forth in the communication, the attorney said they were too silly for serious consideration.

The law had been strictly followed in previous bond issues, and the proceedings, which had been passed upon by the best lawyers and found to be correct, had been followed in this instance. It is probable that there may be some developments at the "conference" some developments at the "conference" today, if the Mayor and City Attorney think it worth while to call on Mr.

Almost every one interviewed on the subject was of the opinion that the whole thing was merely got up to ef-fect the water-bond election, and that the Attorney-General attached his sig-nature to the communication, which had been prepared for him, without due warrant in law and in fact.

IMPORTANT DEAL.

Purchase of the Citizens' Water Company by the City Company. It has been known for some time past that negotiations were going on looking to the purchase of the Citizens' Water Company, which supplies the hill sec-tion, by the City Water Company. It was reported yesterday that the deal had been closed, all the directors having agreed to the sale, with one excep-tion, and that the papers are now being drawn up for signature, when the transfer will be made. The price paid is not stated. The Citizens' Water Company has for some time past been in the hands of J. C. Kays as receiver. It was further stated that in case the deal goes through, the purchasers say they will extend the mains and furnish an abundant supply of good water inside of sixty days.

Mr. Shorb did not seek the office, in fact, he would have preferred to have declined, as he did the nomination for Congress, which he has declined more than once.

Mr. Shorb has been in public life, giving his county and the State valuable service for years, all without a cent of pay; and now that he has been urged by his friends in both the great parties to stand for County Treasurer, it becomes a pleasant duty for his neighbors, friends and the hundreds who have been benefited by his public deeds to give him the testimonial he has so justly earned, by casting our votes for him on November 8 for the office. Alhambra, without distinction of party, asks the voters throughout the county to join them in making Mr. Shorb's election an overwhelming vote as a testimonial to his past services.
